

## **Tessa M. Chisolm, WC Unit Manager**

I am a Florida native and have been with Travelers for the past 17 years. This entire period I have been in Worker's Compensation. I started in the Investigative Claim Unit addressing only compensability as well as handling litigation on denied claims. I later transitioned to the Return to Work Department handling claims with varying severity including some critical cases. Currently I am WC Unit Manager.

Prior to coming to Travelers I worked for a small TPA in Maitland. In 2016, I transitioned to a Unit Manager Role in the ICU/Medical Only Unit. I hold a BS Degree from the University of Central Florida in Health Services Administration and a MS Degree from Troy State University in Business Administration.
