

Marti Dickman

Vice President, Risk Management
Advanced Disposal, Inc.
Jacksonville, FL

As VP of Risk Management, Ms. Dickman leads risk management operations for Advanced Disposal. Joining the company in 2006, Ms. Dickman tackled the challenge of creating an innovative risk management department for this high-growth company. Her leadership skills have enabled her to build a strong risk management team which has grown from a department of one to a department of nine risk professionals. Ms. Dickman also used her 20+ years of experience to write the company's first safety manual, create the New Hire Training manual and establish risk and safety policy and procedures which have resulted in reductions of loss frequency and severity for a company which has more than quadrupled in size since she joined the leadership team
