

Cameron's Wish

"From the moment we arrived at the airport and were greeted by GKTW volunteers, we knew this trip was going to be unforgettable," says Jaleesa Russell, whose son, Cameron, has battled cancer twice; received a liver transplant; and undergone 30+ surgeries. "Our stay was just magical; we were awestruck by the love and attention to detail that was put into every aspect of our visit. The Village felt like home, and seeing Cameron happy and healthy was truly priceless. This was a memory we will never forget!"
